

**As Academy trainers and leaders we have the shared vision of serving the community of trainers, teachers and students of Kundalini Yoga. By doing with awareness, presence, love and compassion we will be able to develop, inspire and heal ourselves and collectively, and express our highest destiny.**

**We recognize that we are responsible to act as leaders to inspire and guide our community and our actions mirror and replicate our reality and the reality of others. So we agree that our intention is to act within in community under the following principles:**

- **We will act and dialogue with awareness and transparency, beyond our shields**
- **We will value our peers and we will reflect them with honesty**
- **We will honor all those who have served and guided us in the past**
- **We recognize each other's pain within ourselves**
- **We will heal the past and we will surrender it to God**
- **We recognize the importance of communication and commit ourselves to do it with conscious communication**
- **We value compassion as a virtue of community life**
- **We will not judge**
- **We will maintain a meditative and prayerful practice to support the group consciousness**
- **We will work in our personal challenges so that do not impact community well-being**
- **We accept that we cannot do everything**
- **We will cultivate self-acceptance and acceptance of others**
- **We will recognize that living in community is a constant learning process and we must give ourselves permission to make mistakes and that others will do so too**
- **We value love as a guiding virtue to participate in community**
- **We will resolve our differences with love, compassion and awareness**
- **We will not turn anyone away**
- **We will let everyone have the opportunity to participate in collective action**
- **We will recognize that all of us are resources for creativity and knowledge**
- **We will trust in the invisible hand of the Golden Chain, Guru and God**

**By acting in this way**

- **As individuals we will feel supported, recognized, accepted and appreciated by the community**
- **Our community will be strengthened**
- **We will be able to cover for our personal weaknesses and leverage the strengths of others**
- **We will generate a group that elevates, unites, inspires and heals**
- **We will have a deep sense of belonging**
- **We will minimize conflict and suffering**
- **We will be transformed into the promise**

**Our collective intention is to serve with gratitude and deliver the teachings with love.**

**In doing so we will belong to a caring community, we will manifest our destiny and we infinity will serve us.**
