

- We understand the 180 classroom hours must be delivered in at least 22 days. Is this correct? Where can we find the rules clearly stated? What are the requirements for teaching an immersion?
- How about other formats? 7-7-8 days is ok?
- How much does the student gain in 22 days in terms of information and development of skills?
- If a large team gets together to teach an immersion, what tools do we have for delivering the teachings with a feeling of uniformity from one trainer to another?

(Sat Tara Singh and Jap Singh)
