

KRI is interested in expanding its Board of Directors. Our intention is to strengthen and balance Board representation broadly across the globe and to include voices that represent the views and perspectives of our diverse community. To that end, we invite you to self-nominate and/or recommend qualified candidates who are interested in re-inventing KRI to meet the needs, the consciousness, and the heart of this new Age.

We are looking for people who meet most of the following criteria:

Love of the teachings based on personal experience and a burning desire to see them spread throughout the world

Intellectual capacity to understand the businesses governed by the board

Interpersonal skills to work well with other board members

Instinct and good judgment for making strategic decisions

Commitment to enthusiastically put in the time that is needed to help KRI grow

Financial ability to attend meetings; this is totally voluntary position

Time availability ability to commit to 10 to 20 days a year for meetings and projects outside of meetings

Prosperity consciousness to be a personal donor to KRI

Fundraising skills

Integrity to do what is right for the KRI and for our constituents

Historical perspective on KRI's past and future development

Kundalini Yoga teaching experience

Familiarity with the business of yoga (teachings, workshops, running a center, producing and/or selling products, etc.)

Prior board experience

Broad geographical representation

Ability to see the business as a whole, from a board perspective, without getting lost in operational detail

Experience in legal or corporate compliance matters

Financial skills and analysis – ability and experience in understanding and analyzing financial reports

If you are interested in self-nominating or know of a person who would love to serve the teachings and technologies of Kundalini Yoga, please send a request for more information and an application to:

Gurusahay Singh Khalsa

Gurusahay@gmail.com

Humbly yours,

Gurusahay Singh

Board Chair, Kundalini Research Institute
