

December 2020 Global Summit

Wow! Over 170 Trainers from 36 Countries participated in the December ATA Global Summit. We came together as a community of trainers even with zoom fatigue and classes to teach and families to take care of, taking this time to meditate together, to say hello, to see the faces of our peers who are serving each day and to share.

It is so important that we are working for a future together. Thank you for taking the time to be present.

As we were to the close of our 3-year cycle theme, "*Community, Communication and Culture*", the program was consolidated to convey the December theme "*Healing into the future together*", with what Trainers all over the world have envisioned for the Academy:

- Setting our frequency: Deep connection through meditation
- Circle of Peers: Giving and receiving - a time to share with fellow trainers
- Just Outcomes: Restorative Justice and Compassionate Reconciliation interactive time
- Trainers of the Future: Online teaching and learning opportunities
- Diversity and Inclusion: Responsibly vibrating "We are all one"
- Topics focused on the ATA's future that KRI needs your voice
