How to best use the regional trainer meetings to keep our focus on pedagogy in general?

- Get Jagat Prem's intro video(s) in YouTube, so it will have the subtitles - send trainers there. Jagat Prem make a really short video for this (next few weeks).
 - The 2 videos in the Pedagogy folder could be put up in YouTube. The one from July is more motivating, and the one from Nov is more specific tips.
 - There was a short video, but it's out of date, so Jagat Prem will redo and put in folder
- Also maybe just one of our tools as well, so people will see them and get interested.
- Ask what trainers can contribute, see what they may want to share. Who wants to record more videos, in more languages?
